GREEN OR SUSTAINABLE BUILD 綠色環保建築

Sponsored by:

The Swiss Leader

Company 得獎者: Barrie Ho Architecture Interiors

Project 得獎作品: The Lime: HKFYG Youth Spot @ Heng Fa Chuen

Project leader 項目總監: Barrie Ho

Project team 設計團隊: Angelina Pi, Flora Yip, Cirrus Wong

The Lime is a new generation youth space utilising various green features which aims to encourage teens to develop environmental awareness and concerns. The green palette acts as the core design feature to capitalise on the fact that youths respond better to bold colours. In addition to the green mural, a vertical foliage feature wall creates a striking presence in space. Completing the enclosure, the ceiling was also features a green leaf motif. 杏花村青年空間The Lime是新世代的青年空間，透過各種綠色設計鼓勵青年確立環保觸覺及關注環保。用色鮮艷能更吸引年輕人，空間設計正善用這一點，以綠色色調作為核心。除了綠色壁畫外，另一裝飾牆的牆身更用上葉子，營造出空間的焦點。為使整體感覺更完整，天花亦有綠葉設計主題。

Company 得獎者: Andy Tong Creations

Project 得獎作品: The Balance Chair, Beijing

Project leader 項目總監: Andy Tong

To create leisure space in one of Beijing's major shopping centres, Joy City, Andy Tong designed a public seating area inspired by city-dwellers' growing exposure and acceptance of western culture. A 'green' environment and European lamp poles were adopted in the design, with plants placed below the 7m-high lamp poles to create a lush, 'nature'-influenced environment. Taiji-style refined seating with built-in lighting symbolises reconciliation and a connection between shoppers and the green environment.

湯兆榮為北京大悅城大型購物商場創造出休閒空間。北京人愈來愈多機會接觸並日漸接受西方文化，這個現象啟發湯兆榮設計出別緻的公共座區空間，同時營造綠化環境，設有七米高的歐洲式燈柱，燈柱下放大型盆栽植物，形成繁茂的天然格調。座位的形狀是別出心裁的太極圖案，座位下裝有燈飾，象徵購物者與綠色環境之間和諧一致的聯繫。
